

!! NEW !! user-friendly ENTRANCE

In an attempt to become more “user-friendly” to all of our guests, we have created a new entrance at the Jesuit Center that eliminates using any stairs.

When you come up the main driveway, bear **left** at the Sacred Heart statue, and continue up the hill where

parking will be to your left by the gray garage, and **the new entrance will be to your right.**

The door opens on the cloister, so we will call it the “Cloister Entrance” for overnight guests.

As before, a loading and unloading zone is available at this new entrance way before parking your car in the parking area.
